**Stephen Groom Joins ITR Laboratories Canada Inc. as Senior Veterinary Pathologist**

**Quebec, Canada; March 7, 2017** – [ITR Laboratories Canada Inc.](#), a global provider of preclinical services, is pleased to announce the addition of Stephen Groom, D.V.M., Ph.D., ACVP, as senior veterinary pathologist to its team. In this role, Groom will be responsible for expanding the company's pathology services.

Groom has more than 30 years of experience in veterinary sciences and pathology. Prior to joining ITR, he was the president of Halton Hills Pathology and Toxicology, Inc., an independent pathology services company that provided pathology reading services to ITR. He also gained pathology experience from positions held at Pfizer, Can BioPharma Consultants and CiToxLAB.

-more-

“Stephen’s expertise in pharmaceutical-related pathology and his industry business experience will ensure ITR continues to excel in both science and service to our clients,” said [Ginette Bain](#), senior vice president. “We know our clients will be as excited as we are about him joining our team.”

**About ITR Laboratories Canada**

[ITR Laboratories Canada Inc.](#) provides preclinical testing services for pharmaceutical and biotechnology industries worldwide. As a CRO with extensive experience, ITR provides clients with valuable input and best practices, which ultimately help them maximize the value of their investment.
